Owen Roy Aylesworth

The Aylesworth family record, as expected, took many hours of effort to compile. Someone had to take the first step and gather the data into an organized arrangement of the facts. This I have enjoyed doing very much. Much of the data was supplied by the many members of the family assisting generously when requested. They searched old records, papers and memories; recorded the data on forms requesting many answers, some hard to obtain, and sent the forms back.

The family grew with each passing week. More names, more facts, and more addresses to send more requests to for additional information. While some took more time than others, each were doing their best to fill in all the necessary data and asking to be of further assistance. A few requests, we might never know why, failed to find their way back. It is hoped that if kept informed of new changes and additions, addendas can be added from time to time, keeping the record current.

Every effort has been made to make this record as complete and accurate as possible. Should an error or omission be found please make it known so that it may be included in the addenda. All data has been obtained from the nearest source to the event and checked in many cases with the records of the county of origin. The record as now compiled is as complete as possible. There are only a few names or facts needed for perfection. Someday it may be possible to find the missing ones and return them to the fold.

It has been a most rewarding experience to compile this record. Become acquainted with these many new friends and interesting facts about this most wonderful family -----OURS.

## INTRODUCTION

In developing a method of identifying the different members of the family and their relationship to their ancestors, all present methods of genealogical identification were discarded. Each former system seemed too restrictive by not allowing for additions of family lines not known at the time of numbering. If a line was mistakenly omitted, all the numbers had to be changed to make the necessary inclusion.

In this text we have a nonlimiting method of identification. Each succeeding generation is identified by alternating first numbers then letters. The children of a given parent are numbered or lettered in the order of their birth by adding to the identification of their parents. Lets start for example with the progenitor of this record and add his descendents as follows:

Caleb Sheldon Aylesworth - progenitor - no mark

His 7th child- Fredrick Sheldon - #7

Fredrick's 1st. child - Fredrick D. - #7-A

Fred. D's 2nd child - Owen Roy - #7A-2

Owen's third child - Nancy Denise - #7A2-C

Nancy's first child - (yet to be) - #7A2C-1

Each succeeding generation continues to add a number or letter which ever is next in order.

In the text that follows, copied exactly from the book, "Arthur Aylsworth and His Descendents in America.", a different system was used. Excerpts of that book are included to show the ancestors of the progenitor of this record. You will note a different spelling of the family name. There are forty-four different spellings listed in the book and nine thousand relatives. The book was printed in the year 1887, with a total of 250 copies. It contains 496 pages of text and 136 pages of index. Known copies are in the Library of Congress, Washington, D.C., D. A. R. Library, Washington, D.C., Sutro Branch, Calif. State Library, San Francisco, Calif., the Authors Library and one owned by Mrs. Beatrice Adams, Roseburg, Oregon, a distant relative of the family.

## DEDICATION

To the memory of all those who have gone before us. The members of the families joined together in the past to make this, our family, what it is today.

### "The String Attached"

This book was made possible by the efforts of many. It is my desire that it be used by the members of the family as long as they desire to possess it. When the book has served it's usefulness to them, I ask that it be donated to a library having a genealogy department. In this way those who come long after we are gone share the information with us and all will not be lost.

With thanks

Owen R. Aylesworth

## THE FAMILY SURNAME

This collection is properly named the Aylworth Genealogy. The name of the immigrant ancestor was Arthur Aylworth. His signature to deeds, will and codicil is recorded as autographic and uniformly written Arthur Aylworth. This form of the name prevailed among his descendents very generally for many years, and has been brought down to the present day by some.

Hence we would emphasize this fundamental fact, the original family surname. The results of a varying American orthography cannot set it aside. Traditional accounts, respecting the spelling of the name, must also yield to the superior force of unequivocal records.

The first variation in the spelling seems to have been the introduction of an s-Aylsworth-traces of which are found at an early date. The name has this form once only in the record of the immigrant's will, made between 1712 and 1720.

A record of the autographic signature of the immigrant's eldest son-Robert, is not found. In the body of instruments executed by him the name is clerically spelled Aylsworth. At the time his estate was settled, 1760, the records show much confusion in the spelling of his name, but the original form prevailed in his widow's will, and his son Ephraim's signature is recorded as autographic and spelled Aylworth in 1761, and Aylsworth in 1762.

The will of the son Arthur, of West Greenwich, was made in 1761. His signature was recorded as autographic in this and other instruments executed by him, and was written Aylworth.

his

to the will of the son John, made in 1771, but in the body of the will the name is uniformly spelled Aylsworth. In 1776 his son Arthur signed his name "Aley, worth" in conveying land by deed.

It is probable that the son Philip made a will but no trace of it has yet been found. The clerical

spelling of his name in 1736 was both Alworth and Aleworth, but the s became so thoroughly established in the name with this branch of the family that Sylvester Aylsworth, his great grandson, concluded erroneously, that the immigrant's name was Aylsworth.

The son Chad signed his name without the s certainly until quite late in life, but "being very sick and weak in body" when his will was made in 1756, he signed the same by the mark thus, Chaad his

mark

The clerical spelling of the name as found in the old town records, deeds, wills, etc., is not to be appealed to with confidence in justification of any particular orthography. In some cases the name is found spelled variously by the same hand in the same article or instrument. This inexcusable liberty was not uncommon. That confusion should appear in the spelling of a name so unusual and peculiar is not surprising, especially in a community removed from educational advantages. The immigrant's unvarying signature should settle conclusively the question of the proper orthography of the family surname.

The following list of unusual spellings, if of no importance otherwise, possesses a charm of variety, and is made from actual spellings of the name found in various records and writings:

Alsworth,	Aysworth,	Ayloworth,
Alesworth,	Alytsworth,	Aleyworth,
Ailsworth,	Aylysworth,	Aillsworth,
Alworth,	Alysworth,	Ealsworth,
Alyworth,	Ayelsworth.	

We observe, so far, but two important features -- the essential characteristics of the immigrant's name -- Aylworth, and the introduction of s ( or es) Aylsworth, reflecting a changed pronunciation of the name.

----

The descendents of many families who emigrated from Rhode Island for one reason or another, or with no reason, have allowed the family surname to be spelled Elsworth or Ellsworth.

Working in the hay field, he was taken sick on a Thursday in July, 1761, and died the following Sunday, aged 76 years. His will was made July 4, 1761, probably during his sickness, and proved Aug. 1st, following; the will being signed Arthur Aylworth, and the personal inventory amounting to £ 672. They probably lived in East Greenwich until after the birth of their sixth child, since the record of the births of six children are found there. The others are found in Coventry. His will, made Nov. 14, 1789, says that he was old and feeble, and mentions the names of all his children given below, except John and Phebe. FORTH GENERATION

33. PHILIP (4) - Philip (3), Arthur (2), Arthur (1), - was born June 7, 1737, and married June 14, 1762, Martha (6) - Joseph (5), Giles (4), Samuel (3), Giles (2), Anthony (1) - who was born in West Greenwich, R.I., March 9, 1744-5, and who was a daughter of Joseph (5) and Hannah (-----) Slocum.

They settled in Coventry, R.I., as appears from a deed of gift from his father Sept. 12, 1761, and other transfers of real estate. He sold land in West Greenwich in 1765, 1766-7, and land in Coventry 1766, 1769 and 1777. His signature to these deeds was autographic, and spelled "Aylworth."

They emigrated to Milford, Otsego Co., N.Y., living some considerable time at Pownal, Vt. before their final settlement in Milford, but accounts are so conflicting that the author has not been able to determine to his satisfaction the dates of these changes.

He died in Milford, of cancer, about 1809-10, and she in July, 1822, at the residence of her son Samuel, in the town of Butternuts, and not far from the village of South New Berlin, N.Y., in the cemetery of which latter place she lies buried.

Their family of children consisted of five sons and three daughters, of whom we have account, but the order of their names is not certainly known;

89. i John (5) m. Elizabeth Humphrey; dw. Milford

He died May 21, 1849, in Lanesboro, Pa., but was buried at South New Berlin.

Edward and Polly Burr were brother and sister.

(Note: Marshall and Marcia were twins. C. Sheldon is the progenitor of the record to follow; he was born Caleb Sheldon Aylesworth and married twice the second of which is recorded hereafter. It is apparent the author could not locate him to complete the record for this line as he did not assign a number to him in the text.)

On November 6, 1848 he married Diantha V. Ketchum by whom he probably had at least one son of a name unknown. The manner in which this first marriage terminated is also unknown. On May 3, 1861 he took for his second wife, Kathern Almina Bartlett, known to most as Mina, and born September 2, 1838, the daughter of Mathew Bartlett (November 5, 1803 - to - January 1, 1902) and Martha Collins both of Vermont. A saying of the family states that Mathew is the Grandson of Gov. Josiah Bartlett of New Hampshire, the 2nd signer of the Declaration of Independence. So far the proven relationship cannot be found by the author.

Sheldon, as he was known, died in Appleton, Outagamie Co. Wis. on January 20, 1906 and Mina died September 27, 1921 in Sparta, Monroe Co., Wis., after bearing nine children.
